(2) In case of any other receipts, the Board may, having regard to the circumstances of the case, allow such relief as it deems fit.

(3) To claim relief under section 157(1), the assessee shall furnish the particulars specified in Form No. 39 on or before the due date specified under section 263(1)(c).

(4) Where the assessee, being a Government servant or an employee in a company, co-operative society, local authority, university, institution, association or body, is entitled to relief under section 157(1), he may furnish the particulars specified in Form No. 39 to the person responsible for making the payment referred to in section 392(1).

**74. Taxation of income from retirement benefit account maintained in a notified country.** – (1) If a specified person has income accrued in a specified account or accounts during a tax year, such income shall, at his option, be included in his total income of the tax year in which income from the said account or accounts is taxed upon withdrawal or redemption, as the case may be, in the notified country.

(2) Where the option has been exercised by a specified person under sub-rule (1), the total income of the specified person for the tax year in which income is taxable under sub-rule (1) shall not include the income which, —

(a) has already been included in the total income of such specified person in any of the earlier tax years during which such income accrued and tax thereon has been paid in accordance with the provisions of the Act; or

(b) was not taxable in India, in the tax year during which such income accrued, on account of,—

(i) such specified person being a non-resident, or not ordinarily resident as referred to in section 6(13), during that tax year; or

(ii) application of the Double Taxation Avoidance Agreement, if any, and the foreign tax paid on such income, if any, shall be ignored for the purposes of computation of the foreign tax credit under rule 76.

(3) The option under sub-rule (1) by the specified person shall be exercised

(a) in respect of all the specified accounts maintained by the specified person; and

(b) in Form No. 40, which shall be furnished on or before the due date specified under section 263(1)(c).

(4) In a case where the specified person becomes a non-resident during any relevant tax year, then—

(a) the option exercised under the sub-rule (1) shall be deemed to have never been exercised with effect from the relevant tax year; and

(b) the income which has accrued in the specified account or accounts during the period, beginning with the tax year in respect of which the option under the said sub-rule was exercised and ending with the tax year immediately preceding the relevant tax year, shall be taxable during the tax year immediately preceding the relevant tax year, and tax shall be paid on or before the due date of filing the return of income for the relevant tax year.

(5) Subject to the provisions of sub-rule (4), once the option is exercised for a specified account or accounts in respect of a tax year under sub-rule (1) in Form No. 40, it shall apply to all subsequent tax years and cannot be subsequently withdrawn for the tax year for which the option was exercised, or for any subsequent tax year.

(6) For this rule,—

(a) the expressions "notified country", "specified account" and "specified person" shall have the meanings respectively assigned to them in section 158(2);

(b) "relevant tax year" means the tax year during which the specified person becomes non-resident subsequent to the tax year in respect of which option under sub-rule (1) has been exercised.

**75. Other documents and information to be provided for claiming double taxation relief under section 159(1) and (2).**— (1) For the purposes of claiming any double taxation relief under an agreement mentioned in section 159(1) or (2), the other documents and information to be provided by an assessee (not being a resident) under section 159(8)(b) shall be as per Form No. 41.

- (2) The assessee shall keep and maintain such documents as are necessary to substantiate the information provided in Form No. 41 and the income-tax authority may call for the said documents to verify the claim of relief.
- (3) An assessee, being a resident in India, for obtaining a certificate of residence for the purposes of an agreement referred to in section 159(1) and (2) shall make an application in Form No. 42 to the Assessing Officer.
- (4) The Assessing Officer, on receipt of the application and on being satisfied in this behalf, shall issue a certificate of residence in Form No. 43.

**76. Foreign tax credit.**— (1) An assessee, being a resident shall be allowed a credit for the amount of any foreign tax paid by him in a country or specified territory outside India, by way of deduction or otherwise, in the tax year in which the income corresponding to such tax has been offered to tax or assessed to tax in India, in the manner and to the extent as specified in this rule.

(2) In a case, where income on which foreign tax has been paid or deducted, is offered to tax in more than one tax year, credit of foreign tax shall be allowed across those tax years in the same proportion in which the income is offered to tax or assessed to tax in India.

(3) The foreign tax referred to in sub-rule (1) shall mean, —

(a) in respect of a country or specified territory outside India with which India has entered into an agreement for the relief or avoidance of double taxation of income in terms of section 159, the tax covered under the said agreement;

(b) in respect of any other country or specified territory outside India, the tax payable under the law in force in that country or specified territory in the nature of income-tax referred to in section 160(3)(a).

(4) The credit under sub-rule (1) shall be available against the amount of tax, surcharge and cess payable under the Act, but not in respect of any sum payable by way of interest, fee or penalty.

(5) No credit under sub-rule (1) shall be available in respect of any amount of foreign tax or part thereof, which is disputed in any manner by the assessee, subject to the provisions of sub-rule (6).

(6) If the assessee, within six months from the end of the month in which the dispute is finally settled, furnishes evidence of settlement of dispute and an evidence to the effect that the liability for payment of such foreign tax has been discharged by him and furnishes an undertaking that no refund in respect of such amount has directly or indirectly been claimed or shall be claimed, the credit of such disputed tax shall be allowed for the year in which such income is offered to tax or assessed to tax in India.

(7) The credit of foreign tax shall be the aggregate of the amounts of credit computed separately for each source of income arising from a particular country or specified territory outside India and shall be given effect to in the following manner: —

(a) the credit shall be the lower of the tax payable under the Act on such income and the foreign tax paid on such income, so, however, that where the foreign tax paid exceeds the amount of tax payable in accordance with the provisions of the agreement for relief or avoidance of double taxation, such excess shall be ignored;

(b) the credit shall be determined by conversion of the currency of payment of foreign tax at the telegraphic transfer buying rate on the last day of the month immediately preceding the month in which such tax has been paid or deducted.

(8) In a case where any tax is payable under the provisions of section 206, the credit of foreign tax shall be allowed against such tax in the same manner as is allowable against any tax payable under the provisions of the Act other than the provisions of the said sections (herein referred to as the normal provisions).

(9) Where the amount of foreign tax credit available against the tax payable under the provisions of section 206 exceeds the amount of tax credit available against the normal provisions, then, while computing the amount of credit under section 206(1)(m) to (p) and section 206(2)(e) to (h), in respect of the taxes paid under section 206(1) and (2), as the case may be, such excess shall be ignored.

(10) Credit of any foreign tax shall be allowed on furnishing the following documents by the assessee: —

- (a) a statement of income from the country or specified territory outside India offered for tax for the tax year and of foreign tax deducted or paid on such income in Form No. 44 and verified in the manner specified therein; and
- (b) certificate or statement specifying the nature of income and the amount of tax deducted therefrom or paid by the assessee, —
  - (i) from the tax authority of the country or specified territory outside India; or
  - (ii) from the person responsible for deduction of such tax; or
  - (iii) signed by the assessee.

(11) The certificate or statement furnished by the assessee in sub-rule (10)(b) shall be valid, if it is accompanied by —

- (a) an acknowledgement of online payment or bank counter foil or challan for payment of tax where the payment has been made by the assessee; or
- (b) proof of deduction, where the tax has been deducted.

(12) The statement in Form No. 44 referred to in sub-rule (10)(a) and the certificate or the statement referred to in sub-rule (10)(b) shall be furnished within twelve months from the end of the relevant tax year in which the income referred to in sub-rule (1) has been offered to tax or assessed to tax in India and the return for such tax year has been furnished within the time specified under section 263(1) or (4), subject to the provisions of sub-rule (13).

(13) Where the return has been furnished under section 263(6)(a), the statement in Form No. 44 referred to in sub-rule (10)(a) and the certificate or the statement referred to in sub-rule (10)(b), to the extent it relates to the income included in the updated return, shall be furnished on or before the date on which such return is furnished.

(14) Form No. 44 shall also be furnished in a case, where the carry backward of loss of the current year or revision of return or similar statement, the case may be, of any year or any other reason results in refund of foreign tax for which credit has been claimed in any tax year or tax years.

(15) For the purposes of sub-rule (6), the assessee shall furnish an intimation in Form No. 45 and evidence of settlement of dispute including evidence of payment of tax.

(16) Form No. 44 shall be verified by an accountant defined in section 515(3)(b), —

- (a) where the assessee is a company; or
- (b) in all other cases, where the amount of foreign tax paid outside India for a tax year equals or exceeds ₹ 100000.

(17) Form No. 45 shall be verified by an accountant defined in section 515(3)(b) in a case, where Form No. 44 filed for the relevant tax year was required to be verified by an accountant under sub-rule (16).

(18) For the purposes of this rule, the expression “telegraphic transfer buying rate” shall have the meaning assigned to it in rule 207.

**77. Meaning of expressions used in determination of arm's length price.**— For the purpose of this rule and rules 78 to 84, —

- (a) “associated enterprise” shall have the meaning assigned to it in section 162;
- (b) “enterprise” shall have the meaning assigned to it in section 173(b) and shall, for the purposes of a specified domestic transaction, include a unit, or an enterprise, or an undertaking or a business of a person who undertakes such transaction;
- (c) “property” includes goods, articles or things, and intangible property;

- (d) “services” include financial services;
- (e) “transaction” includes a number of closely linked transactions; and
- (f) “uncontrolled transaction” means a transaction between enterprises other than associated enterprises, whether resident or non-resident.

**78. Other method for determination of arm's length price.**— For the purposes of section 165(1)(f), the other method for determination of the arm's length price in relation to an international transaction or a specified domestic transaction shall be any method which takes into account the price, which —

- (a) has been charged or paid; or
- (b) would have been charged or paid,

for the same or similar uncontrolled transaction, with or between non-associated enterprises, under similar circumstances, considering all the relevant facts.

**79. Determination of arm's length price under section 165.**— (1) For the purposes of section 165(2), the arm's length price in relation to an international transaction or a specified domestic transaction shall be determined by any of the following methods provided in this sub-rule, being the most appropriate method, in the manner specified therein.

- (a) comparable uncontrolled price method, by which, —
  - (i) the price charged or paid for property transferred or services provided in a comparable uncontrolled transaction, or a number of such transactions, is identified;
  - (ii) such price is adjusted to account for differences, if any, between an international transaction or a specified domestic transaction and the comparable uncontrolled transactions or between the enterprises entering into such transactions, which could materially affect the price in the open market; and
  - (iii) the adjusted price arrived at under sub-clause (ii) is taken to be an arm's length price in respect of the property transferred or services provided in the international transaction or the specified domestic transaction; or
- (b) resale price method, by which, —
  - (i) the price at which property purchased or services obtained by the enterprise from an associated enterprise is resold or are provided to an unrelated enterprise, is identified;
  - (ii) such resale price is reduced by the amount of a normal gross profit margin accruing to the enterprise or to an unrelated enterprise from the purchase and resale of the same or similar property or from obtaining and providing the same or similar services, in a comparable uncontrolled transaction, or a number of such transactions;
  - (iii) the price so arrived at is further reduced by the expenses incurred by the enterprise directly in connection with the purchase of property or obtaining of services;
  - (iv) the price so arrived at is adjusted to take into account the functional and other differences, including differences in accounting practices, if any, between the international transaction or the specified domestic transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect the amount of gross profit margin in the open market; and
  - (v) the adjusted price arrived at under sub-clause (iv) is taken to be an arm's length price in respect of the transaction of purchase of property or obtaining of the services by the enterprise from its associated enterprise; or
- (c) cost plus method, by which, —
  - (i) the direct and indirect costs of production incurred by the enterprise in respect of property transferred or services provided to an associated enterprise, are determined;

- (ii) the amount of a normal gross profit mark-up on such costs (computed according to the same accounting norms) arising from the transfer or provision of the same or similar property or services by the enterprise, or by an unrelated enterprise, in a comparable uncontrolled transaction, or a number of such transactions, is determined;
  - (iii) the normal gross profit mark-up referred to in sub-clause (ii) is adjusted to take into account the functional and other differences, if any, between the international transaction or the specified domestic transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect such profit mark-up in the open market;
  - (iv) the costs referred to in sub-clause (i) are increased by the adjusted profit mark-up arrived at under sub-clause (iii); and
  - (v) the sum so arrived at is taken to be an arm's length price in relation to the supply of the property or provision of services by the enterprise; or
- (d) profit split method, which may be applicable mainly, in, —
- (i) an international transaction or a specified domestic transaction involving either the transfer of unique intangibles or unique and valuable contributions by each of the enterprises involved in the transaction; or
  - (ii) multiple international transactions or specified domestic transactions which are so inter-related that they cannot be evaluated separately for the purpose of determining the arm's length price of any one transaction, under which the following two approaches may be used —
    - (A) contribution profit split method, by which, —
      - (I) the combined net profit of the associated enterprises arising from the international transaction or the specified domestic transaction in which they are engaged, is determined;
      - (II) the relative contribution made by each of the associated enterprises to the earning of such combined net profit, is then evaluated on the basis of the functions performed, assets employed or to be employed and risks assumed by each enterprise and on the basis of reliable external market data, which indicates how such contribution would be evaluated by unrelated enterprises performing comparable functions in similar circumstances;
      - (III) the combined net profit is then split amongst the enterprises in proportion to their relative contributions, as evaluated under sub-item (II); and
      - (IV) the profit thus apportioned to the assessee is taken into account to arrive at an arm's length price in relation to the international transaction or the specified domestic transaction;
    - (B) residual profit split method, by which, —
      - (I) the combined net profit of the associated enterprises arising from the international transaction or the specified domestic transaction in which they are engaged, is determined;
      - (II) the combined net profit referred to in sub-item (I) may, in the first instance, be partially allocated to each enterprise so as to provide it with an arm's length return appropriate for the contributions which can be reliably benchmarked using comparable uncontrolled transactions,
      - (III) the residual net profit remaining after such allocation may be split amongst the enterprises in proportion to their relative contributions in the manner specified under items (II) and (III) of item (A); and
      - (IV) the aggregate of the net profit allocated to the enterprise for contributions which can be reliably benchmarked using comparable uncontrolled transactions in together with the residual net profit apportioned to that enterprise on the basis of its relative

contributions shall be taken into account to arrive at an arm's length price in relation to the international transaction or the specified domestic transaction; or

- (e) transactional net margin method, by which, —
- (i) the net profit margin realised by the enterprise from an international transaction or a specified domestic transaction entered into with an associated enterprise is computed in relation to costs incurred or sales effected or assets employed or to be employed by the enterprise or having regard to any other relevant base;
  - (ii) the net profit margin realised by the enterprise or by an unrelated enterprise from a comparable uncontrolled transaction or a number of such transactions is computed having regard to the same base;
  - (iii) the net profit margin referred to in sub-clause (ii) arising in comparable uncontrolled transactions is adjusted to take into account the differences, if any, between the international transaction or the specified domestic transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect the amount of net profit margin in the open market;
  - (iv) the net profit margin realised by the enterprise and referred to in sub-clause (i) is established to be the same as the net profit margin referred to in sub-clause (iii); and
  - (v) the net profit margin thus established is then taken into account to arrive at an arm's length price in relation to the international transaction or the specified domestic transaction; or
- (f) any other method as provided in rule 78.
- (2) For the purposes of sub-rule (1), the comparability of an international transaction or a specified domestic transaction with an uncontrolled transaction shall be judged with reference to the following factors (herein referred to as the comparability factors): —
- (a) the characteristics of the property transferred or services provided in either transaction;
  - (b) the functions performed, taking into account assets employed or to be employed and the risks assumed, by the respective parties to the transactions;
  - (c) the contractual terms (whether or not such terms are formal or in writing) of the transactions which lay down explicitly or implicitly how the responsibilities, risks and benefits are to be divided between the respective parties to the transactions; and
  - (d) the conditions prevailing in the markets in which the respective parties to the transactions operate, including the geographical location, depth and size of the markets, the laws and Government orders in force, costs of labour and capital in the markets, overall economic development, level of competition and whether the markets are wholesale or retail.
- (3) An uncontrolled transaction shall be comparable to an international transaction or a specified domestic transaction, if—
- (a) none of the differences, if any, between the transactions being compared, or between the enterprises entering into such transactions, are likely to materially affect the price or cost charged or paid in, or the profit arising from, such transactions in the open market; or
  - (b) reasonably accurate adjustments can be made to eliminate the material effects of such differences.
- (4) The data to be used in analysing the comparability of an uncontrolled transaction with an international transaction or a specified domestic transaction shall be the data relating to the financial year (hereinafter in this rule and in rule 81 referred to as the current year) in which the international transaction or the specified domestic transaction.

(5) In a case where the most appropriate method for determination of the arm's length price of an international transaction or a specified domestic transaction is resale price method or cost-plus method or transactional net margin method, then, irrespective of anything contained in sub-rule (4), the data to be used for analysing the comparability of an uncontrolled transaction with an international transaction or a specified domestic transaction shall be —

- (a) the data relating to the current year; or
- (b) the data relating to the first preceding year, if the data relating to the current year is not available at the time of furnishing the return of income by the assessee for the tax year; and where the data relating to the current year is subsequently available at the time of determination of arm's length price of an international transaction or a specified domestic transaction during the course of any assessment proceeding for the tax year, then, such data shall be used for such determination irrespective of the fact that the data was not available at the time of furnishing the return of income of the relevant tax year.

**80. Most appropriate method.**— (1) For the purposes of section 165(2)(a), the most appropriate method shall be the method which is best suited to the facts and circumstances of each particular international transaction or specified domestic transaction and which provides the most reliable measure of an arm's length price in relation to the international transaction or the specified domestic transaction, as the case may be.

(2) The following factors shall be taken into account for selecting the most appropriate method: —

- (a) the nature and class of the international transaction or the specified domestic transaction;
- (b) the class or classes of associated enterprises entering into the transaction and the functions performed by them taking into account assets employed or to be employed and risks assumed by such enterprises;
- (c) the availability, coverage and reliability of data necessary for application of the method;
- (d) the degree of comparability existing between the international transaction or the specified domestic transaction and the uncontrolled transaction and between the enterprises entering into such transactions;
- (e) the extent to which reliable and accurate adjustments can be made to account for differences, if any, between the international transaction or the specified domestic transaction and the comparable uncontrolled transaction or between the enterprises entering into such transactions; and
- (f) the nature, extent and reliability of assumptions required to be made in application of a method.

**81. Determination of arm's length price in certain cases.**— (1) Where in respect of an international transaction or a specified domestic transaction, the application of the most appropriate method referred to in section 165(3)(b) results in determination of more than one price, the arm's length price in respect of such transactions shall be computed in accordance with the provisions of this rule.

(2) A dataset shall be constructed by placing the prices referred to in sub-rule (1) in an ascending order and the arm's length price shall be determined on the basis of the dataset so constructed.

(3) For the purposes of sub-rule (2), where the most appropriate method is the resale price method, cost plus method, or transactional net margin method, and where the comparable uncontrolled transaction undertaken by an enterprise, not being the enterprise undertaking such transactions referred to in sub-rule (1), has been identified using data relating to—

- (a) the current year, and the said enterprise has undertaken the same or similar comparable uncontrolled transaction, in either or both of the two financial years immediately preceding the current year, then, —
  - (i) the price in respect of such transaction in such year (or years) shall be determined by applying the most appropriate method in the similar manner as applied in the current year; and
  - (ii) the weighted average of such prices, as computed under sub-rule (5), shall be included in the dataset under sub-rule (2) instead of price referred to in sub-rule (1);

(b) the financial year immediately preceding the current year (if the data relating to current tax year is not available at the time of furnishing return of income for that year), and the said enterprise has undertaken the same or similar comparable uncontrolled transaction in the financial year immediately preceding the two financial years, then—

(i) the price in respect of such transaction shall be determined by applying the most appropriate method in the similar manner as it was applied in the financial year immediately preceding the current year; and

(ii) the weighted average of such prices, as computed under sub-rule (5), shall be included in the dataset under sub-rule (2) instead of price referred to in sub-rule (1).

(4) Where the use of data relating to the current year, in terms of rule 79(5), establishes that—

(a) the enterprise has not undertaken the same or similar uncontrolled transaction during the current year; or

(b) the uncontrolled transaction undertaken during the current year is not a comparable uncontrolled transaction,

then, irrespective of anything else, neither the price nor the weighted average of prices of the comparable uncontrolled transactions shall be included in the dataset.

(5) Where an enterprise has undertaken comparable uncontrolled transactions in more than one financial year, the weighted average of the prices of such transactions for the purposes of sub-rules (2), (3) and (4) shall be computed based on the method used for determination of prices as specified in column B of the following Table and by assigning weights to the factors specified in column C thereof: —

**Table**

| Sl. No. | Method                           | Factors to which weight is assigned                                                                                                               |

Enterprise X has undertaken controlled transaction with its associated enterprises during the current year. After taking into account the facts and circumstances, transactional net margin method has been selected as the most appropriate method, enterprise X has been selected as the tested party, and the ratio of operating profit (OP) to operating expense (OE) has been selected as the profit level indicator (PLI). The data of the comparable uncontrolled transactions is available for the current year under consideration at the time of furnishing return of income by the assessee and based on the same, seven non-associated enterprises have been identified to have undertaken the comparable uncontrolled transactions in the current year. All the identified comparable enterprises have also undertaken comparable uncontrolled transactions in a period of two years preceding the current year. The weighted average PLI calculation for each non-associated enterprise shall be as follows:

| Sl. No. | Name of non-associated enterprise | Year 1    | Year 2     | Year 3 [Current Year] | Aggregation of OE and OP | Weighted Average PLI |
|---------|-----------------------------------|-----------|------------|-----------------------|--------------------------|----------------------|

|    |   |          |          |          |                |                |
|----|---|----------|----------|----------|----------------|----------------|
| 6. | F | OE = 160 | OE = 120 | OE = 140 | Total OE = 420 | OP/OE = 11.9%  |
|    |   | OP = 21  | OP = 14  | OP = 15  | Total OP = 50  |                |
| 7. | G | OE = 150 | OE = 130 | OE = 155 | Total OE = 435 | OP/OE = 10.57% |
|    |   | OP = 21  | OP = 12  | OP = 13  | Total OP = 46  |                |

From the above, the dataset will be constructed by arranging the weighted average values of PLI in an ascending order as follows:

| Sl. No. | 1    | 2  | 3    | 4  | 5      | 6     | 7   |
|---------|------|----|------|----|--------|-------|-----|
| Values  | 2.2% | 6% | 8.2% | 9% | 10.57% | 11.9% | 12% |

For deriving the arm's length range, the data place of 35th and 65th percentile shall be computed in the following manner:

Total number of data points in dataset  $\times (35/100)$

Total number of data points in dataset  $\times (65/100)$

Thus, the data place of the 35th percentile =  $7 \times 0.35 = 2.45$ .

Since this is not a whole number, the next higher data place, that is, the value at the 3rd place would have at least 35% of the values below it. The 35th percentile, is therefore, value at the 3rd place, that is, 8.2%.

The data place of the 65th percentile is  $= 7 \times 0.65 = 4.55$ .

Since this is not a whole number, the next higher data place, that is, the value at the 5th place would have at least 65% of the values below it. The 65th percentile is therefore value at 5th place, that is, 10.57%.

The arm's length range will be beginning at 8.2% and ending at 10.57%.

Therefore, if the PLI in case of the enterprise X that has undertaken the international transaction or the specified domestic transaction is equal to or more than 8.2% and less than or equal to 10.57%, the price at which such international transaction or the specified domestic transaction has actually been undertaken shall be deemed to be the arm's length price. No adjustment shall be required.

However, if the PLI in case of the enterprise X is lower than the 35th percentile of the arm's length range, that is, 8.2%, then for the purpose of determining the arm's length price, the median of the dataset shall be used. The median will be first determined in the following manner:

The data place of median is calculated by first computing the total number of data point in the dataset  $\times (50/100)$ . In this case it is  $7 \times 0.5 = 3.5$ .

Since this is not a whole number, the next higher data place, that is, the value at the 4th place in the dataset would have at least 50% of the values below it (median).

The median in this case is 9%. Therefore, the PLI at arm's length shall be 9% and the controlled transaction shall be adjusted so as to yield this PLI for the controlled enterprise X.

#### *Illustration 2*

In case of the Enterprise X referred to in *Illustration 1*, the data of the current year is available only in respect of non-associated enterprises A, C, E, F and G at the time of furnishing the return of income by the assessee. In respect of non-associated enterprises B and D, the data of the financial year preceding the tax year is available at the time of furnishing the return of income and the same has been used to identify comparable uncontrolled transactions undertaken by enterprises B and D. Further, if these seven non-associated enterprises have also undertaken comparable uncontrolled transactions in either or both of the two financial years immediately preceding the tax year then such data has been included in the dataset. The weighted average PLI calculation for each non-associated enterprise shall be as follows:

| Sl. No. | Name of non-associated enterprise | Year 1             | Year 2             | Year 3 [Tax Year]  | Aggregation of OE and OP | Weighted Average PLI |

The data for tax year in respect of enterprise D shall be included in the dataset. From the above, the dataset will be constructed by arranging the weighted average values of PLI in an ascending order as follows:

| Sl. No. | 1     | 2  | 3     | 4      | 5      | 6     | 7   |
|---------|-------|----|-------|--------|--------|-------|-----|
| Values  | (-)4% | 9% | 9.56% | 10.57% | 11.35% | 11.9% | 12% |

The calculation of the arm's length range and the arm's length price shall then be performed in the same manner as that described in *Illustration 1*.

### *Illustration 3*

In a given case, comparable uncontrolled price method has been selected as the most appropriate method and 20 comparable uncontrolled transactions have been identified. The dataset of 20 prices, arranged in ascending order, is as under:

| Sl. No. | Profits (in ₹ Thousands) |
|---------|--------------------------|
| 1       | 2                        |
| 1       | 42.00                    |
| 2       | 43.00                    |
| 3       | 44.00                    |
| 4       | 44.50                    |
| 5       | 45.00                    |
| 6       | 45.25                    |

|    |       |
|----|-------|
| 7  | 47.00 |
| 8  | 48.00 |
| 9  | 48.15 |
| 10 | 48.35 |
| 11 | 48.45 |
| 12 | 48.48 |
| 13 | 48.50 |
| 14 | 49.00 |
| 15 | 49.10 |
| 16 | 49.35 |
| 17 | 49.50 |
| 18 | 49.75 |
| 19 | 50.00 |
| 20 | 50.15 |

Applying the formula given in the *Illustration 1*, the data place of the 35th and 65th percentile is determined as follows:

35th percentile place =  $20 \times (35/100) = 7\text{th}$ .

65th percentile place =  $20 \times (65/100) = 13\text{th}$ .

Since the 35th percentile place is a whole number, it shall be the average of the prices at the 7th and next higher, that is, 8th place. This is  $(47000+48000)/2 = ₹ 47500$ .

Similarly, the 65th percentile will be average of 13th and 14th place prices. This is  $(48500+49000)/2 = ₹ 48750$ .

The median of the range (the 50th percentile place) =  $20 \times (50/100) = 10\text{th}$

Since the 50th percentile place is a whole number, it shall be the average of the prices at the 10th and next higher, that is, 11th place. This is  $(48350+48450)/2 = ₹ 48400$ .

Thus, the arm's length range in this case shall be from ₹ 47500 to ₹ 48750.

Consequently, any controlled transaction whose price is equal to or more than ₹ 47500 but less than or equal to ₹ 48750 shall be considered to be within the arm's length range. If such price is not within the arm's length range, then, for the purpose of determining the arm's length price, the median of the dataset shall be used.

**82. Exercise of option for determination of arm's length price for multiple years in a single proceeding.—** (1)

The option or options as per section 166(9)(a) may be exercised by an assessee for determination of arm's length price for multiple year in a single proceeding by furnishing Form No. 46 for two consecutive tax years (the second tax year and the third tax year, respectively) immediately following the tax year (the first tax year) in respect of which reference has been made in its case under the said section.

(8) In a case where, during the proceedings under section 166, it is found that the information provided by the assessee in the Form No. 46 is inaccurate or not *bona fide* or the accountant, as defined in section 515(3)(b), furnishes the certificate in Form No. 47 to the same effect or conditions as specified in sub-rule (5) are not met, the order passed under sub-rule (4) shall be cancelled.

(9) Before cancelling the order passed under sub-rule (4), the Transfer Pricing Officer shall give the assessee a reasonable opportunity of being heard and take the approval from the Commissioner before cancelling the order.

**(3) When certificate may be executed:** (a) Subject to the provisions of clauses (b) and (c), no step in execution of a certificate shall be taken until the period of fifteen days has elapsed, since the date of the service of the notice required by sub-rule (2);

(b) if the Tax Recovery Officer is satisfied that the defaulter is likely to conceal, remove or dispose of the whole or any part of such of his movable property as would be liable to attachment in execution of a decree of a Civil Court and that the realisation of the amount of the certificate would in consequence be delayed or obstructed, he may at any time direct, for reasons to be recorded in writing, an attachment of the whole or any part of such property; and

(c) if the defaulter, whose property has been so attached, furnishes security to the satisfaction of the Tax Recovery Officer, such attachment shall be cancelled from the date on which such security is accepted by the Tax Recovery Officer.

**(4) Mode of recovery:** If the amount mentioned in the notice is not paid within the time specified therein or within such further time as the Tax Recovery Officer may grant in his discretion, the Tax Recovery Officer shall proceed to realise the amount by one or more of the following modes:

(b) Where immovable property is sold in execution of a certificate, and such sale has become absolute, the right, title and interest of the purchaser shall be deemed to have vested in him from the time when the property is sold, and not from the time when the sale becomes absolute.

**(7) Suit against purchaser shall not be maintainable on the ground of purchase being made on behalf of plaintiff:** (a) No suit shall be maintained against any person claiming title under a purchase certified by the Tax Recovery Officer in the manner laid down in this rule, on the ground that the purchase was made on behalf of the plaintiff or on behalf of someone through whom the plaintiff claims.

(b) Nothing in this rule shall bar a suit to obtain a declaration that the name of any purchaser, certified as aforesaid, was inserted in the certificate fraudulently or without the consent of the real purchaser, or interfere with the right of a

third person to proceed against that property, though ostensibly sold to the certified purchaser, on the ground that it is liable to satisfy a claim of such third person against the real owner.

**(9) General bar to jurisdiction of Civil Courts, save where fraud alleged:** (a) Subject to provisions of clause (b) and except as otherwise expressly provided in the Act, every question arising between the Tax Recovery Officer and the defaulter or their representatives, relating to the execution, discharge or satisfaction of a certificate, or relating to the confirmation or setting aside by an order under the Act, of a sale held in execution of such certificate, shall be determined, not by suit, but by order of the Tax Recovery Officer before whom such question arises; and

(b) a suit may be brought in a **Civil Court** in respect of any such question upon the ground of fraud.

(b) where the property to which the claim or objection applies has been advertised for sale, the Tax Recovery Officer ordering the sale may postpone it, pending the investigation of the claim or objection, upon such terms as to security, or otherwise as the Tax Recovery Officer shall deem fit;

(c) the claimant or objector shall adduce evidence to show—

- (i) in the case of immovable property, at the date of the service of the notice issued under this rule to pay the arrears; or
- (ii) in the case of movable property, at the date of the attachment, that he had some interest in, or was possessed of, the property in question.

(d) where, upon the said investigation, the Tax Recovery Officer is satisfied that, for the reason stated in the claim or objection, such property was not, at the said date, in the possession of the defaulter or of some person in trust for him, or in the occupancy of a tenant or other person paying rent to him, or that, being in the possession of the defaulter at the said date, it was so in his possession, not on his own account or as his own property, but on account of or in trust for some other person, or partly on his own account and partly on account of some other person, the Tax Recovery Officer shall make an order releasing the property, wholly or to such extent as he thinks fit, from attachment or sale;

(e) where the Tax Recovery Officer is satisfied that the property was, at the said date, in the possession of the defaulter as his own property and not on account of any other person, or was in the possession of some other person in trust for him, or in the occupancy of a tenant or other person paying rent to him, the Tax Recovery Officer shall disallow the claim; and

(f) where a claim or an objection is preferred, the party against whom an order is made may institute a suit in a Civil Court to establish the right, which he claims to the property in dispute; but, subject to the result of such suit (if any), the order of the Tax Recovery Officer shall be conclusive.

**(12) Removal of attachment on satisfaction or cancellation of certificate:** Where—

**(15) Adjournment or stoppage of sale:** (a) The Tax Recovery Officer may, in his discretion, adjourn any sale hereunder to a specified day and hour; and the officer conducting any such sale may, in his discretion, adjourn the sale, recording his reasons for such adjournment, but where the sale is made in, or within the precincts of, the office of the Tax Recovery Officer, no such adjournment shall be made without the leave of the Tax Recovery Officer.

(b) where a sale of immovable property is adjourned under clause (a) for a longer period than one calendar month, a fresh proclamation of sale in this rule shall be made unless the defaulter consents to waive it;

  - (iii) if the self-certification indicates that the entity crypto-asset user is resident in a country or territory outside India, the reporting crypto-asset service provider shall treat the entity crypto-asset user as a reportable user, unless it reasonably determines based on the self-certification or on information in its possession or that is publicly available, that the entity crypto-asset user is an excluded person.
- (4) With respect to an entity crypto-asset user, other than an excluded person, the reporting crypto-asset service provider shall determine whether it has one or more controlling persons who are reportable persons, unless it determines that the entity crypto-asset user is an active entity, based on a self-certification from the entity crypto-asset user.

- (7) If at any point, there is a change of circumstances with respect to an entity crypto-asset user or its controlling persons that causes the reporting crypto-asset service provider to know, or have reason to know, that the original self-certification is incorrect or unreliable, then the reporting crypto-asset service provider—

- (f) if applicable, the information as to the criteria it meets to be treated as an active entity or excluded person.

- (ii) a reporting crypto-asset service provider is considered to have confirmed the “reasonableness” of a self-certification if, in the course of establishing a relationship with an individual crypto-asset user and upon review of the information obtained in connection with the establishment of the relationship (including any documentation collected pursuant to the Anti Money Laundering or Know Your Customer Procedures), it does not know or have reason to know that the self-certification is incorrect or unreliable;
- (iii) where the self-certification fails the reasonableness test referred to in sub-clause (ii), the reporting crypto-asset service provider shall obtain either a valid self-certification, or a reasonable explanation and documentation (as appropriate) supporting the reasonableness of the self-certification, and retain a copy or a notation of such explanation and documentation before providing services effectuating relevant transactions to the individual crypto-asset user;
- (iv) for the purposes of sub-rule (2)(b), a reporting crypto-asset service provider is said to have reason to know that a self-certification is unreliable or incorrect, if its knowledge of relevant facts or statements contained in the self-certification or other documentation is such that a reasonably prudent person in the position of the reporting crypto-asset service provider would question the claim being made;

(xi) a change of circumstances affecting the self-certification provided to the reporting crypto-asset service provider will terminate the validity of the self-certification with respect to the information that is no longer reliable, until the information is updated;

(xii) where a change of circumstances occurs, the reporting crypto-asset service provider shall not rely on the original self-certification and shall obtain either—

(A) a valid self-certification that establishes the residence(s) for tax purposes of the individual crypto-asset user; or

(B) a reasonable explanation and documentation supporting the validity of the original self-certification (and retain a copy or a notation of such explanation and documentation);

(xiii) a self-certification shall become invalid on the date the reporting crypto-asset service provider holding the self-certification knows or has reason to know that the circumstances affecting the correctness of the self-certification have changed;

(xiv) a reporting crypto-asset service provider may choose to treat a person as having the same status that it had prior to the change in circumstances until the earlier of ninety calendar days from the date that the self-certification became invalid due to the change in circumstances, the date that the validity of the self-certification is confirmed, or the date that a new self-certification is obtained;

(xv) where a reporting crypto-asset service provider cannot obtain a confirmation of the validity of the original self-certification or a valid self-certification during such ninety-day period, the reporting crypto-asset service provider shall treat the individual crypto-asset user as resident of the country(s) or territory(s) in which the individual crypto-asset user claimed to be resident in the original self-certification and the country(s) or territory(s) in which the individual crypto-asset user may be resident as a result of the change in circumstances;

(xvi) a reporting crypto-asset service provider may rely on a self-certification without having to inquire into possible changes of circumstances that may affect the validity of the statement, unless it knows or has reason to know that the circumstances have changed;

(xvii) a reporting crypto-asset service provider may retain an original, certified copy, or photocopy (including a microfiche, electronic scan or similar means of electronic storage) or electronic copy of the self-certification;

(xviii) a reporting crypto-asset service provider may treat a self-certification as valid, irrespective of whether the self-certification contains an inconsequential error, if the reporting crypto-asset service provider has sufficient documentation on file to supplement the information missing from the self-certification due to the error and the documentation relied upon to cure the inconsequential error shall be conclusive.
